

## **– But between the pillars – אבל בין העמודים**

**רה"ר** – it is considered a **רה"ר** – כרשות הרבים דמי

**even though that between any two pillars, there are no sixteen אמות separating them, and we know that a רה"ר requires a width of sixteen אמות, nevertheless**

**רה"ר**. Why is this so? – the area between the pillars is a **רה"ר** – הוי רשות הרבים

explains תוספות

**since the people who utilize the רה"ר traverse through this area between the pillars**

**and the entire area, which extends beyond the area of the בין העמודים, is sixteen אמות wide, therefore even the narrow area is also a רה"ר, since it is incorporated and part of the larger רה"ר<sup>1</sup>.**

### Summary

Areas of a **רה"ר** that are narrowed down to less than sixteen אמות, are still considered a **רה"ר**.
